<input type="checkbox"/> DHS implemented IRM/RA directly
<input checked="" type="checkbox"/> DHS provided oversight/guidance to RP's or other state, local or federal agency for IRM/RA
7. Description of IRM/RA:

The Department of Health Services issued a notice requiring California Water Service to act based on the risk of exposure of Perchloroethylene in the Chico drinking water supply. The wells were taken out of service in 1985 and may have acted as conduits of migrant contamination since that date. DHS has received and approved the abandonment workplan submitted by CWS on April 11, 1990. Field operations began during the week of June 18, 1990. The abandonment of well No. 2 was completed by July 1, 1990.

8. Cost of IRM/RA:
California Water Service has not provided us with actual cost, however, it is estimated that well abandonment will cost about \$40,000.
9. Date of IRM/RA:
Initiated: June 18, 1990
Completed: The abandonment of well No. 2 was completed by July 1, 1990
10. Work Remaining to be Done at Site:
DHS is continuing to require RP's to investigate and cleanup contaminated groundwater. DHS has also allocated \$835,000 for groundwater stabilization measures.
